 **aimmp**
Portuguese Association of
Wood and Furniture Industries

**Portuguese Association of
Wood and Furniture Industries**

AIMMP's mission is to represent, promote and protect the interests of Portuguese companies from the five sectorial divisions that make up the wood and furniture sector: wood cutting, felling, sawing and wood packing; panels, other wood derivatives and biomass energy; carpentry and alike; furniture and alike; export, import and distribution of wood and derivatives. These industries export €3.3 billions per year.

Inter Wood & Furniture is a structured intervention program that supports portuguese companies interested in developing internationalization strategies in order to expand into new growing markets. Over the years, this program has supported more than 400 companies, through more than 140 actions in more than 50 markets with incentives up to 50%, having certainly contributed to the growth of the sector's exports by around 1.000 million euros in the last 10 years.

Cobermaster[®]
Concept
Cool Art Furniture

Cobermaster Concept is a Portuguese brand dedicated to the development and manufacture of premium furniture with vintage and industrial inspiration with international projection. Innovation, sustainability, design and character are the basis of inspiration for the creation of each of the pieces, most of which are produced using 3D grating, a mesh with unique characteristics, manufactured using a technology developed and patented by the company itself. We hold hands with the environment and for that reason we develop and produce pieces with a responsible use of materials with the reuse and reintegration of almost 100% of our production surplus. On the other hand, we also bet on a sturdy manufacture of our pieces, providing them a long life cycle and the possibility to be restored many years later.

D' CASA

D' CASA is specialized in construction projects, within the scope of engineering and architecture. Has one of the most modern carpentry factories in the country.

Starting with the architectural concept, complemented by engineering projects in the various specialties, until the final delivery of the work - "Turnkey" projects.

In these processes, depending on the specificities of each project, **D' CASA** uses reputable partners and different production units, which allows it to maintain solid standards of construction quality. They guarantee coordinated work, with total fidelity to project specifications and the ability to overcome any unpredictability.

His portfolio presents a wide range of works (Hotels, Offices and Residences), including the management, coordination and execution, in Portugal and abroad.

FRATO

Synonymous with quality and style, **FRATO** pairs traditional craftsmanship with forward-thinking design.

Inspired by a rich tapestry of cultures from across the globe, **FRATO** has developed a distinct international aesthetic. This is married with premium materials and meticulous attention to detail to unveil interiors that are second to none. Established in 2010 in Porto, Portugal, **FRATO** started life as a high-end jewellery house. It grew organically into a luxury interiors brand, but the jeweller's eye for detail remains. The result is original and elegant pieces with a focus on heritage shapes and elevated features.

FRATO is a family-run business. From the company name to the bonds made with trades and craftsmen, familiar values are at **FRATO**'s heart. The name '**FRATO**' is a combination of the names of the founder's two sons, it also stands for 'fraternity'. Each person involved in the design and manufacturing process becomes an extension of the **FRATO** family.

Frato conducts business across the globe and its designs can be experienced first hand in London's Harrods and Design Centre Chelsea Harbour, Dubai Mall in the UAE and as of September 2023 at 500 Park Avenue, New York.
