TEMAHOME

TemaHome is a Portuguese furniture brand with over 40 years of experience in creating timeless, multifunctional pieces that enhance modern living spaces.

We have an in-house design team that develops and creates products while regularly collaborating with external designers, both Portuguese and international, who work with the company on specific clients or markets. We manufacture furniture using honeycomb panels with finishes such as wood veneer, lacquer, melamine, and even incorporate more premium materials in some products, such as marble and others. Sustainability is a core value for us. Since 2016, we have been FSC and SMETA certified and adhere to the principles of ISO 9001 (quality) and ISO 14001 (environmental) certifications.

TemaHome brings together contemporary design and market-ready solutions, proudly made in Portugal. We are always open to start a conversation and explore new synergies. Let's create something meaningful together.
