

**A. BARBOSA**

WOOD & FLOORS EXPERTS

**A. Barbosa, Lda.** is a specialist in wood processing and the production of premium hardwood flooring solutions, both for interior and exterior applications.

With over 35 years of experience, the company combines tradition with innovation, managing the full cycle of wood transformation through its own sawing, drying, and production facilities. This integrated approach guarantees high standards of quality, precision, and reliability in every project.

One of **A. Barbosa's** core areas of expertise is the manufacture of outdoor decking, using exotic and durable woods such as plantation teak, iroko, ipe, as well as thermally treated alternatives. These materials are carefully selected to ensure long-lasting performance, natural beauty, and sustainability.

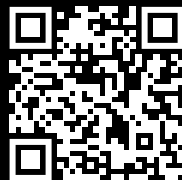

Committed to preserving wood as a renewable resource,

**A. Barbosa** develops innovative solutions that respect both nature and modern design requirements. The company is certified by ISO 9001:2008 and offers FSC® and PEFC™ certified options, ensuring responsible sourcing and sustainable forest management.

**A. Barbosa** is recognized as a trusted partner in the wood industry, delivering products that reflect craftsmanship, sustainability, and excellence.
