## COLLECTION

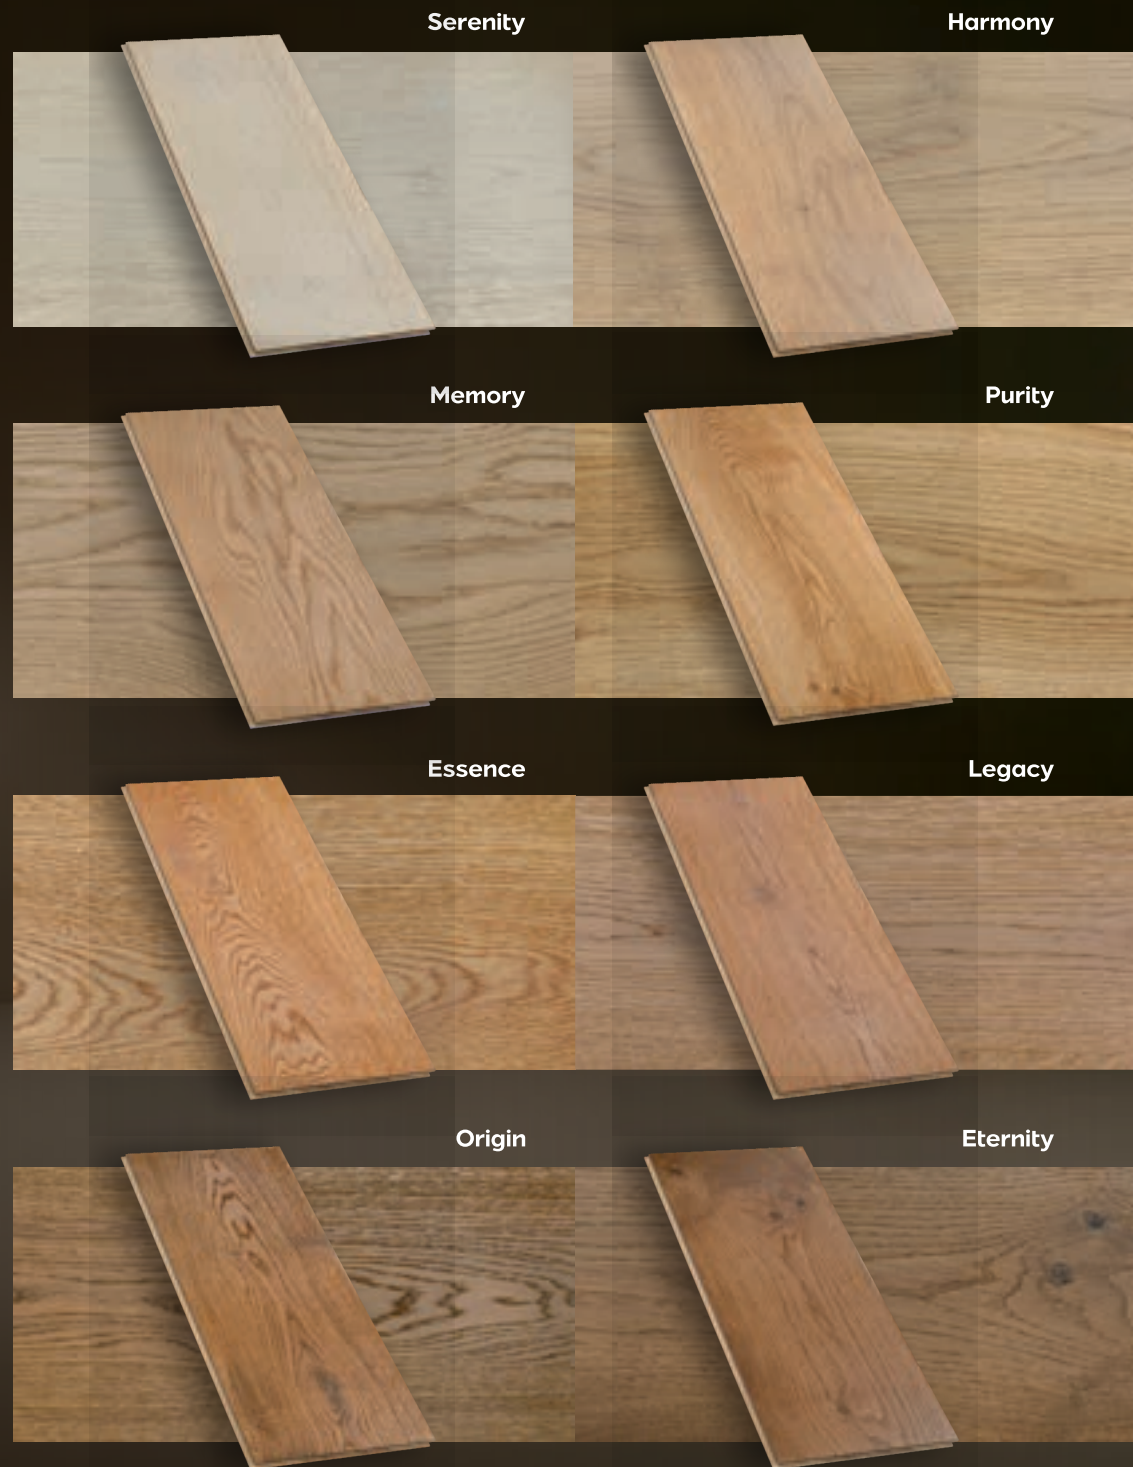

ALMA is a collection created to translate emotions, not trends, forging an intimate bond between the product and the person who lives with it.

Born from a vision that transcends fashion and fleeting movements, ALMA returns wood to its most natural state: pure, honest, and timeless. Every color and finish was carefully crafted to evoke authentic feelings, restoring the essence that makes oak such a familiar presence in our lives.

In a world driven by constant change, ALMA invites us to slow down. To rediscover the home as a refuge, the comfort of simplicity, and the beauty of what feels truly ours. Each shade becomes a sensory experience, a reminder of our origins, our memories, and the emotions that shape who we are.

More than flooring, ALMA creates spaces that breathe serenity and authenticity. Environments built to endure, to remain relevant, and to grow with us over time.

ALMA is more than flooring, designed to touch (us), to be lived in, and to last.
